

Google Cloud Services

Google Enterprise products take many of the consumer applications you're familiar with and provide the features, security and support that enterprises require. Whether you're working in a startup environment or a Fortune 500 company, Google Enterprise applications give you all the advantages of Cloud Computing.

From Gmail for business to collaborative Google Docs to Web Analytics, Google Enterprise applications are the smart choice for today's organizations.

Google Enterprise Benefits

- Instant scalability
- Unbeatable uptime
- A subscription model that virtually eliminates your need to make capital expenditure

Sikaras Tech Expertise

Sikaras Tech is a Google Partner and Authorized Reseller, and has a rich history in Cloud Computing; we bring the power of Google Enterprise applications to companies of all sizes and across all industries.
